PRINCIPLES OF ECONOMICS
For
DBA & D.Com Part-II

Total Marks:	100
Total Weeks:	32
Contact Hours per week:	06
Total Contact Hours:	192

General Objectives of the course:

1. To know the basic concepts of economics.
2. To link the concepts of utility and consumer behavior with day to day life.
3. To apply the methods for analysing consumer behaviour through demand and supply, and market equilibrium.
4. To know the concepts of national income.
5. To acquire better critical thinking skills through the analysis of present-day economic issues in Pakistan.

Part A. Microeconomics			
Expected Outcome			
The students will be able to understand the basic definitions of economics and how it is evolved over time. Moreover, they will have an understanding of the basic economic concepts.			
Chapter	Course Contents	Allotted Weeks	Contact Hours
01	1. Basic Concepts and Definitions 1.1. Adam Smith's definition of economics, its Merits and Demerits. 1.2. Alfred Marshall's definition of economics, its Merits and Demerits. 1.3. Lionel Robbins' definition of economics, its Merits and Demerits. 1.4. Definitions of different Economics Concepts: 1.4.1. Scarcity and Choice. 1.4.2. Wants: Economic and Non-Economic. 1.4.3. Goods: Economic and Non-Economic.	3 weeks	18
Expected Outcome			
It is expected that the students will have a clear understanding of what purpose people are spending, what are the motives behind that. How the consumer can be satisfied within available resources?			
02	2. Consumer's Behavior 2.1. Definition of Utility. 2.2. Cardinal approach and its assumptions. 2.3. Concept of Initial Utility, Marginal Utility (MU), and Total Utility (TU), explanation through schedule and diagram. 2.4. Relationship between TU and MU, explanation through schedule and diagram. 2.5. Law of diminishing marginal utility, its schedule and diagram. 2.6. Law of Equi-marginal utility, its schedule and diagram.	2 weeks	12
Expected Outcome			
Students are expected to have a clear understanding of the demand and supply forces in their surroundings, and how the prices are determined in the market.			
3	3. Demand, Supply and market equilibrium 3.1. Demand 3.1.1. Definition. 3.1.2. Law of demand (Assumptions, Schedule & Diagram, Exceptions). 3.1.3. Extension, contraction, rise, and fall in demand. 3.1.4. Elasticity of Demand: (Own Price, income, and Cross Price Elasticities of Demand). 3.2. Supply 3.2.1. Definition. 3.2.2. Law of Supply (Definition, Assumptions, Schedule & Diagram, Exceptions). 3.2.3. Extension, contraction, rise and fall in supply. 3.2.4. Price Elasticity of Supply. 3.3. Market Equilibrium 3.3.1. Concept of equilibrium. 3.3.2. Equilibrium price and output determination in the market through demand and supply forces.	4 Weeks	24

Expected Outcome			
At the end of this topic the students will have a basic level of understanding that how the production, and what are the necessary factors for it.			
4	4. Factors of Production and rewards 4.1. Concept of Land and Rent. 4.2. Concept of Labour and wage. 4.3. Concept of Capital and Interest. 4.4. Concept of Entrepreneur and Profit.	1 Weeks	6
5	5. Cost and Revenues Concepts, schedules and Diagrams 5.1. Total Cost. 5.2. Variable Cost. 5.3. Fixed Cost. 5.4. Marginal Cost. 5.5. Total Revenue. 5.6. Marginal Revenue. 5.7. Average Revenue.	2 Weeks	12
6	6. Markets 6.1. Definition of market. 6.2. Concept of Perfect Competitive market, and its assumptions. 6.3. Definition of Monopoly, and its characteristics. 6.4. Definition of Monopolistic competition, and its characteristics.	4 weeks	24

Part B. Macroeconomics & Development

Expected Outcome			
Students will be able to differentiate between different national income concepts. They will also be able know different macroeconomic concepts.			
Chapters	Course Contents	Allotted Weeks	Contact Hours
7	7. Basic Concepts in Macroeconomics 7.1. National income concepts, i.e. GNP, GDP, NNP, NI at factor cost, PI, DPI. 7.2. Concept of savings and its sources. 7.3. Concept of investment and its sources. 7.4. Concept of consumption and its types. 7.5. Definition of inflation and its reasons: demand and supply. 7.6.
